

## STUDENT LOUNGE RENOVATION

The present student lounge was added as part of the 2000 STA Building Renovation. It has served both students and residents well. for over 20 years, as a place to gather, meet, study, check email and texts, play cards, socialize with friends or with whoever is in the room at the time, have a cup of coffee or even just sit and zone-out. About a year ago the parish Buildings & Grounds committee began looking at an upgrade/renovation as paint, carpet, and furniture have all aged. A group of interested and talented parishioners, students and residents, were gathered to plan a renovation.

For the student community this area of the building became a *heart* of campus ministry. It is time for a bit of *heart surgery!*

### **The renovation will include:**

1. painting with new vibrant color scheme
2. replace carpet with carpet squares
3. relocate the coffee bar
4. replace the carpet in the office area with vinyl flooring (*for easier cleaning*)
5. new LED ceiling lighting [example](#)
6. new furniture
7. water fountain with a "bottle filler"
